## **DETAILED ACTION**

### ***112 Rejections Withdrawn***

The rejection of claims 42-45 under 35 USC 112, second paragraph, outlined in the previous Office Action, has been overcome by applicant's amendment. The amendment clarifies the claims as appropriate.

### ***102 Rejections Withdrawn***

The rejection of claims 25-49, in so far as they read on the species defined in the previous Office Action, under 35 USC 102(b) is withdrawn. As applicant correctly points out, the cited reference is not available as prior art under 102(b). (The reference was published July 4, 2002.) The examiner regrets the error.

### ***Allowable Subject Matter***

The elected species and its obvious variants remain free of the prior art. The outstanding 102 rejection having been withdrawn, the search was therefore expanded as called for under current Office Markush practice, a compound-by-compound search. **In order to advance the prosecution, all remaining species were searched.** Rejections follow.

***Claim Rejections - 35 USC § 102***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 25-49, in so far as they read on the species below, are rejected under 35 U.S.C. 102(b) as being clearly anticipated by WO 9705105 (CAPLUS abstract). The reference teaches applicant's compounds: RN=188030-34-4 and 188030-36-6.

Claims 25-49, in so far as they read on the species below, are rejected under 35 U.S.C. 102(b) as being clearly anticipated by WO 9742179 (CAPLUS abstract). The reference teaches applicant's compounds: RN=199484-15-6.

Claims 25-49, in so far as they read on the species below, are rejected under 35 U.S.C. 102(b) as being clearly anticipated by WO 9906340 (CAPLUS abstract). The reference teaches applicant's compounds: RN=220390-63-6 and 220390-64-7.

***Double Patenting***

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

At least claims 35-37 are provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of at least claims 9-11 of copending Application No.

Art Unit: 1621

11/289,658. This is a provisional double patenting rejection since the conflicting claims have not in fact been patented.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
